

Editorial

Mr. Delip “Doug” Bokil, Editor-in-Chief

IMAPS

Namark Associates

dbokil@imaps.org

Welcome to the first issue of year 2005.

In this issue, in addition to the "Regular Contributions" and "Best Paper - IMAPS Symposia" sections, we have the privilege of adding a separate section for the "Best Paper - 28th International Conference, IMAPS Poland".

This issue echoes and exemplifies what Bruce Romenesko, the current IMAPS President, has written in *Advancing Microelectronics*, "A word is in order about our increasingly intertwined society".

So, international members or "wanna-be-members" don't be shy about sending us your manuscripts!

I would like to take this opportunity to thank the members of our Journal Advisory Board for coming through with their paper reviews in spite of a very busy, personal-wise, December - January holiday and vacation period.

Regards,
Delip "Doug" Bokil
Editor-in-Chief
