

Microelectronic Packaging and Materials for Medical Devices

Thursday, June 10, 2010
Crowne Plaza Minneapolis Northstar Downtown
Minneapolis, MN

The International Microelectronics and Packaging Society (IMAPS) and IMAPS Viking Chapter will host an Advanced Technology Workshop on Microelectronic Packaging and Materials for Medical Devices. The workshop will be held in Minneapolis, Minnesota.

Overview: The combination of advancing demographics (an aging world population) and an explosion of new micro-electronics technology set the stage for significant improvement and miniaturization in the area of medical electronics.

The Exhibition on Thursday, June 10 will be open from 8:00 AM until 5:00 PM

Tabletop space is offered at:

| | |
|--------------------------------|-------|
| IMAPS Corporate Members | \$375 |
| Non Corporate Members of IMAPS | \$475 |

Exhibit Set-Up: Thursday, June 10, 7:00 - 8:00 AM

Dismantle: Thursday, June 10, after 5:00 PM

Reserve your space on-line at www.imaps.org/medical
