Questions about exhibits?

Ann Bell, IMAPS, abell@imaps.org

The Advanced Technology Workshop (ATW) on Thermal Management has been held since 1992 and is considered to be one of the most successful of the IMAPS ATWs that are held each year.

IMAPS organizes this ATW each year to promote discussion of leading-edge developments in thermal management components, materials, and systems solutions for removing, spreading, and dissipating heat from microelectronic devices and systems. The Workshop emphasis is for **practical, high-performance solutions** to meet current and evolving requirements in computing and wireless/telco systems. Single-company product development concepts are acceptable subjects; however, all abstracts will be judged on novel and innovative contributions to the industry knowledge.

Marketing Feature Available for Exhibitors:

IMAPS will extend to all exhibitors an opportunity to provide an unlimited amount of pages of company products, services and contact information to be included in the Technical Proceedings CD-ROM. These CD-ROMs are provided to all technical conference attendees and are for sale through IMAPS to all industry professionals.

This unique feature will allow exhibiting companies an unlimited amount of promotional material for their products and services that will go well beyond their exposure at the Workshop.

There is no charge for this optional feature. ***However, the deadline (10/1/08) must be met in order to be included.***

Submissions should be sent electronically in one (1) file, either PDF or Word, that is easy to open, not password-protected and in a logical format. Any materials not sent in the required format or that arrive after the deadline, may not appear on the CD-ROM. Send files to abell@imaps.org on or before October 1, 2008.
